

Sustainability Policy

In the context of the current economic and financial climate, and the increasing evidence and awareness of environmental impacts, sustainability is becoming a core consideration for organisations all around the world.

It is though more important than ever before that we increase our sustainable development efforts, to not only maintain our own sustainability but also ensure that we increase the positive contribution we make to the wider community.

Our aim

We aim to follow, promote, and embed good sustainability practices across the organisation to reduce the environmental impact of all our activities and to increase the positive social and economic impacts of our work. We aim to do this through our contact service delivery and how we operate internally in our day-to-day internal support services.

This Policy sets out the framework by which we will undertake its approach to embedding sustainable actions throughout the organisation.

Approach

Action plans will be aligned with and developed to support the Cambridge & Ely Child Contact Centre strategic objectives and meet the expectations of our stakeholders.

Guiding Principles

Our four guiding principles for sustainability and sustainable development are:

- Living within Environmental Limits
 - Minimise waste and disposals Promote and maximise recycling.
 - Sourcing environmentally sustainable resources and ways of working and using these responsibly.
 - Efficient use of energy and water consumption
- Ensuring a strong, healthy & just society
 - Promote actions and deliver contact which helps people make informed choices and helps create sustainable communities
 - Embedding sustainability into all of our services and active promotion and creation of equal opportunity
